

MeSH Consortium

Measurement & Surveillance  
of HIV Epidemics

# Measurement & Surveillance of HIV Epidemics

Developing, testing & implementing  
innovative and efficient methods for  
routine HIV measurement and surveillance

## Conference Pathway:

epidemiology, metrics, & the use of routine  
HIV data

[mesh-consortium@lshtm.ac.uk](mailto:mesh-consortium@lshtm.ac.uk)

[www.mesh-consortium.org.uk](http://www.mesh-consortium.org.uk)

 [@MeSHConsortium](https://twitter.com/MeSHConsortium)

## Monday

**12:30-14:30** Getting to 90: Addressing inequalities in the HIV continuum of care in Europe and Central Asia | **Emerald Room**

**14:45-16:45** Risk heterogeneity across the 90-90-90: Evidence supporting new strategies to strengthen the effectiveness of Universal Test and Treat | **Hall 11a**

## Tuesday

**09:00-09:30** within Plenary session on the epidemiology and vulnerability of missing and indigenous populations | **Hall 12**

**11:00-12:30** HIV elimination is now a reality for gay men: What is working and how do we replicate our successes for all? | **GV SR2**

**13:00-14:00** Mortality trends in the ART era | **G102-103**

## Wednesday

**11:00-12:30** Epidemic transition: How will we achieve it while ensuring equity and quality? | **Forum**

**14:30-17:00** In search of the fourth 90: Exploring and defining what quality of life means for communities and strategizing how we get there | **G104-105**

## Thursday

**11:00-12:30** Theory in practice: Combining new methods and data for HIV prevention | **GV SR1**

**14:30-16:00** The double-sided cascade of prevention and care and beyond | **Hall 12**

**16:30-18:00** I want your sex: Sexual health in the PrEP era | **Elicium 1**

**OR**

**16:30-18:00** Precision programming: Using data to deliver the right programme to the right people | **G104-105**

## Friday

**07:00-08:30** Monitoring the 3 90's, the next frontier: from surveys to routine data to build cascade monitoring at local level | **Emerald Room**

**OR**

**07:00-08.30** WHO satellite on country experiences in monitoring new ARVs: Focus on toxicity monitoring to inform treatment policies | **E102**

**14:20-17:20** Rapporteur session: Prof James Hargreaves, MeSH Director, reporting on Track E | **Hall 12**

**Program Pathway**

www.mesh-consortium.org.uk

The goal of the MeSH Consortium is to maximise the potential of data routinely collected through HIV surveillance and service delivery platforms in order to gain a better understanding of the HIV epidemic at local, national and international levels

## Useful Papers, Reports and Tools:

- **Building Confidence in the Collection & Use of Quality HIV Data** (report) – <https://bit.ly/2t4n6Ll>
- **Know Your Epidemic, Strengthen Your Response** (editorial and journal special edition) – <http://bit.ly/2l1dOUM>
- **Protocol for the Situational Assessment of HIV Case Reporting** (tool) – <http://bit.ly/2lhkB3V>
- **Planning a Multiplier Method Population Size Estimation Study with RDS** (tool for sample size calculation) – <http://bit.ly/2l2jIKV>

The MeSH Consortium, based at the London School of Hygiene & Tropical Medicine, is funded by the Bill & Melinda Gates foundation
